Making a Case: 3Cstudio (take a peek under the hood)

Case **onPoint**: Frank Speyers

### teacher-student painter-professor

**Frank Speyers has a great eye for design...** so naturally he chose 3Cstudio to help him put together a painting portfolio! :)

OK, so that may be hyperbole... suffice it to say **Frank** is rather pleased with his custom WordPress install that is now completely D.I.Y. Additionally, his site now will also function as a starting point to introduce his incoming classes at Calvin College to what a CMS can do for them, entering the ever-changing world of tools in web design & development.
